Hunting with the Rogl Family

OTJIRUZE is one of the oldest, most experienced hunting and safari operations in NAMIBIA. Established in 1966, OTJIRUZE is known for finest plains game and big game hunting, as well as unique photographic and fishing safaris throughout southern Africa. Our family run operation offers 3 luxurious hunting lodges in different areas of Namibia. With over 30 huntable game species and an exclusive hunting area of 125 000 acres all your dreams will become reality. We practice strict hunting ethics. Hunting companionship, hunting in untouched wilderness, the harvesting of a mature admirable trophy and preserving this for our next generation is our main goal. Hunting technique is mainly stalking or spot and stalk. Decades of selective and sustainable hunting has resulted in high quality and quantity of game populations.

Many thanks to Werner and Barbara as well as the whole Otjiruze team or these very beautiful hunting moments. The beauty and diversity of your territories as well as the density of the different species made my stay unforgettable. I particularly liked the tracking of my big Kudu and I proudly bring back this wonderful trophy. See you soon for new adventures.
